

Single-channel Adjustable Volume Pipette

Main Features

- Ergonomic design of low plunger pressure avoids repetitive strain injuries
- Volume range of 0.1-5000ul
- Large 4-position volume display and high display accuracy up to 0.002ul
- Durable high-tech synthetic material provides excellent resistance to high temperature, corrosion and weather
- Reasonable structure and exquisite technology make flexible assembling and disassembling.
- Tip ejector makes easy and quick tip change
- High-elastic tip cone provides good seal and easy removal of tips
- Easy to calibrate and maintain with tools supplied
- Different volume range is identified by different colour top
- Calibrated in accordance with ISO8655 and each pipette supplied with individual test certificate
- The lower section can be autoclaved

Specifications:

Single-channel Adjustable Volume Pipettes				
Code	Volume Range	Increment	Tip Type	Color
LH0301001	0.1-2.0µl	0.002ul	10ul	Brown
